Asian Dessert/Baking

Bake, decorate, and serve! An elegant mochi donut bake-off for couples and friends.

Compete for ingredient chips with easy-to-understand capturing mechanics inspired by Connect Four, featuring not just four-in-a-rows but also a variety of shapes and pieces with different values.

1. Place a chip on the shared grid to form shapes or block your opponents from doing the same!
2. Collect all the chips in the shapes you create.
3. Spend flavor chips to peek at or swap secret flavor ratings set at the start of the game.
4. Once you have all the required ingredients, bake and decorate your mochi donuts.

Once a player finishes making a flight of three mochi donuts, everyone totals their scores based on flavor ratings, and the highest score wins!
